

Voting Reference

What should I have?

3 positive
vote cards

1 negative
vote card

A pen

An envelope

1

Wearable device

How do I cast my votes?

Refer to the presentation, or the guide on the right, to find the number corresponding to the technology you would like to vote for:

- ☒ Write that number on one of your voting cards
- ☒ Put that card in your envelope

When you've cast all your votes, write your name on the outside of the envelope

2

Fall detection sensors

Do I need to vote for different things?

You can cast multiple positive votes on the same option, if you particularly like it

Multiple votes on the same option will be understood as a stronger preference over the alternatives

You are allowed to cast all of your positive votes on different options if you like

3

Medication management device

What's the point of the negative vote?

If you really don't like one of the options, and would be upset to know that it was installed in your home, write its number on the negative vote card and put it in your envelope

If none of the options bother you like that, you can just leave the negative vote card empty, or anything else to show that you aren't casting it

4

Smart communication device

5

Mobile assistant device
